RE: State ARARs for the Standard Scrap and Metal/Chicago
International Exporting Removal Site, ILD0456986263

Dear Mr. Eastep:

The United States Environmental Protection Agency's (U.S. EPA) Region V Emergency and Enforcement Response Branch staff has been requested by the Mr. Robert O'Hara of the IEPA to conduct a removal action at the Standard Scrap Metal/Chicago International Exporting Site located at 4004 S Wentworth Ave. in Chicago, Illinois.

This letter is to formally request that the IEPA identify state ARARs for the Standard Scrap Metal/Chicago International Exporting site. Any State ARARs identified in a timely manner for this removal action will be complied with to the extent practicable.

A draft copy of the work to be performed is attached so that you can detail any State ARARs that apply to those specific tasks. A final copy of the Action Memorandum regarding this site will be forthcoming. The proposed start-up date for the removal action is October of 1994 so a quick turn around on identifying the ARARs will be needed. The IEPA contact on the site is Mark Weber of the Pre-Remedial Unit.

If you have any questions or need any additional information feel free to contact me at 312-353-9351. If you want to fax the comments to me our number is 312-353-9176.

Sincerely,

Steven J. Faryan
On-Scene Coordinator
U.S. EPA Region V
